

GENERAL PRODUCT INFORMATION:

These fixtures are intended to be installed utilizing NEC compliant junction boxes.

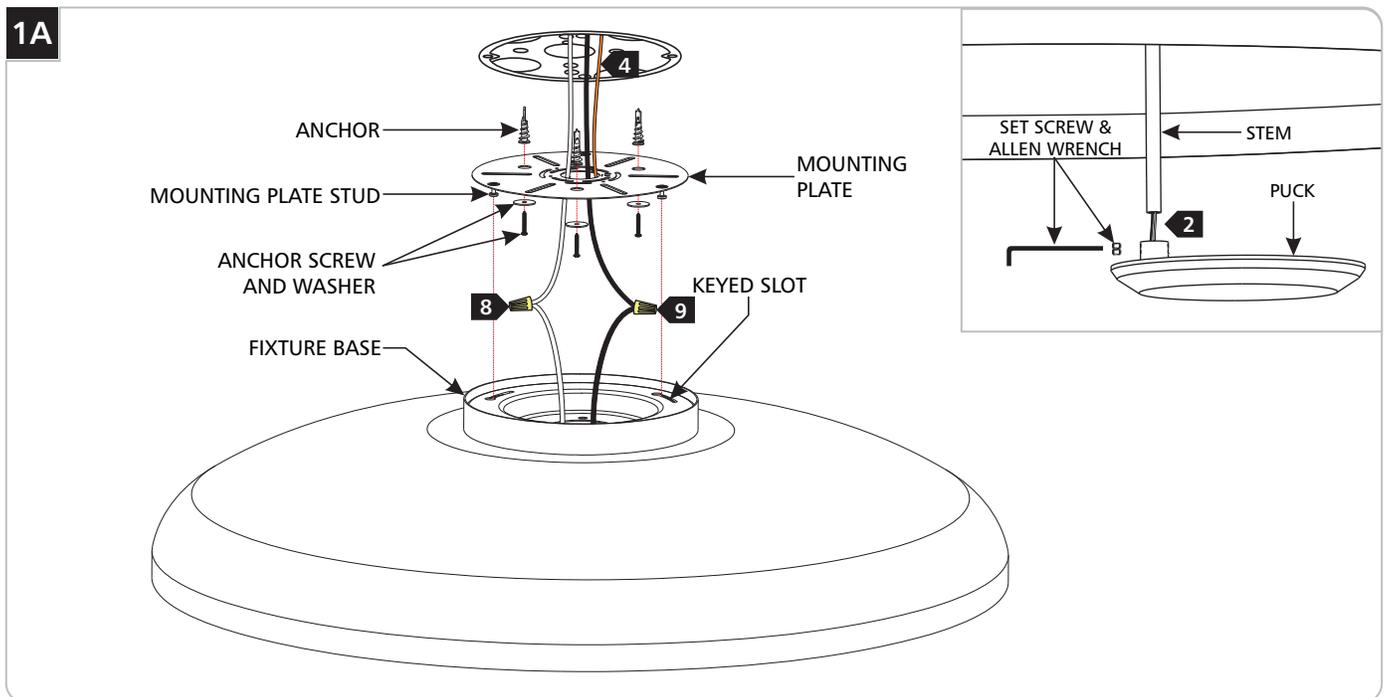

This product is suitable for damp locations.

This product may be dimmed with a low-voltage electronic dimmer.

This instruction shows a typical installation.

CAUTION - RISK OF FIRE
This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.
Use minimum 90°C supply conductors.

Install the Fixture

- 1** Remove the mounting plate from the fixture base by rotating it out of the keyed slots.
- 2** **If the pucks are pre-installed, skip this step.** Install the pucks by feeding the wires through the stems, then secure them in place with the set screws using the provided Allen wrench making sure to orient the pucks in a way that they do not interfere with each other.
- 3** Connect the mounting plate ground wire to a suitable ground in accordance with local electrical codes.
- 4** Install the mounting plate to the junction box with the two #8-32 screws (not shown) provided.
- 5** Verify that the mounting plate is level before continuing. Line an anchor tip with the center of an anchor hole, and push the anchor into the ceiling up to the threads.
- 6** Screw the anchor in the rest of the way with a Phillips-head screwdriver. Repeat for remaining anchor holes.
- 7** Slide a #8 screw through a washer, and screw it into an anchor to secure the fixture base to the ceiling. Repeat for remaining anchors.
- 8** Connect the white fixture wire to the neutral power line.
- 9** Connect the black fixture wire to the hot power line.
- 10** Properly place all wires and wire nut connections into the fixture base, align the keyed slots on the fixture base to the mounting plate studs, place the fixture base onto the mounting plate studs, and secure it by rotating it to the narrow portion of the keyed slot.
