

Sycamore and Malena

700TDSYC, 700SYC, 700TDMLNA, 700MLNA 1.0

GENERAL PRODUCT INFORMATION:

These fixtures are intended to be installed utilizing NEC compliant junction boxes.

This product is suitable for damp locations.

Incandescent lamps may be dimmed with a standard incandescent dimmer. LED lamps may be dimmed with a LED dimmer. Consult lamp manufacturer for additional information.

CAUTION - RISK OF FIRE
 This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.
 Use minimum 90°C supply conductors.

Install the Fixture

- 1** Remove the fixture screws located on the sides of the canopy using the provided Allen Wrench, then remove the mounting plate from the canopy.
- 2** Install the mounting plate onto the electrical box with the two #8-32 screws provided.
- 3** Determine the desired length of the fixture and screw the stems together.
- 4** Feed the fixture wires through the stems and canopy and screw the stems to the top of the fixture assembly, then screw the canopy to the top of the stem assembly.
- 5** Connect the fixture to suitable ground in accordance with local electrical codes.
- 6** Connect the white fixture wire to the neutral power line wire with a wire nut.
- 7** Connect the black fixture wire to the hot power line wire with a wire nut.
- 8** Properly place all wires and wire nut connections into the electrical box, mount the fixture back onto the mounting plate, and reinstall fixture screws (reversal of step 1).
- 9** Screw the lamps into the sockets. Refer to the label on the socket for Max Wattage information.
- 10** Screw the shades onto each socket. **Do not over tighten.**
