

LINE - VOLTAGE PENDANTS / SUSPENSION

Coda Pendant

DESCRIPTION

Slender silhouettes of the contemporary Coda LED pendant light from Tech Lighting are carefully molded using beautiful transparent clear or smoke colored glass, then while the glass is still vulnerable, the lower half of each shade undergoes a delicate treatment to create the intricate crackle effect that gives the fixture its signature look. As a blanket of illumination pours downward from the powerful, yet well-harnessed optic controlled LED source, each tiny fissure catches and refracts the light to catch the eye. The task-oriented light distribution make this pendant light perfect for a variety of applications including kitchen island lighting, while its two elongated sizes lend themselves well to being used together to create a custom chandelier for dining room lighting, foyer lighting or entry lighting. Includes 11 watt, 936 delivered lumen, 3000K LED module. Fixture provided with twelve feet of field-cuttable cable.

INSTALLATION

This product can mount to either a 4" square electrical box with round plaster ring or an octagon electrical box.

WEIGHT

2.3-2.3lb / 1.04-1.04kg ±
