

FLUSH & SEMI-FLUSH MOUNT

Fluid Round Ceiling LED FL T20

DESCRIPTION

Flowing water gets frozen in time in the Fluid Round ceiling fixture by Tech Lighting. The Fluid is created by pouring molten glass into a construed mold, then letting it cool, finally a fire-polishing process creates the glossy sleek finish. Hardly appearing the same way twice, depending on the angle observed, this simple piece seems to change at every angel. The Fluid Round is available in two distinct sizes, small and large, and is available in three on-trend hardware finishes. The Fluid Round is ideal for bathroom lighting, hallway lighting and closet lighting and can be mounted either on the wall or ceiling. Your choice of LED lamping ships with the Fluid Round saving you time and money, both lamping options are fully dimmable to create the desired ambiance in your special space. The unique and elegant look of the piece changes at every angle based on how light hits the surface of the glass. May be mounted on the ceiling or wall. Available in three lamp configurations: incandescent, fluorescent, and LED. Large incandescent includes two 120 volt, 40 watt G9 base halogen lamps; Small incandescent includes one 120 volt 40 watt G9 base halogen lamp; Large fluorescent includes two 13 watt 2GX7 base twin tube lamps and electronic ballast; Large LED includes one 23 watt, 1143 net lumen, LED module; Small LED includes one 12 watt, 472 net lumen LED module. Incandescent version dimmable with a standard incandescent dimmer (not included). LED version dimmable with low-voltage electronic dimmer (not included). Suitable for wet locations. ADA compliant.

INSTALLATION

This product can mount to either a 4" square electrical box with round plaster ring or an octagonal electrical box (not included).
