

# Interlace Suspension LED T20

## DESCRIPTION

A large 30-inch aluminum outer ring is machined to receive hundreds of hand-strung strands of stainless steel cable which create an intricate, interwoven pattern. Powerful LEDs shine inward upon the reflective cables to create visually interesting general illumination. Hang the 30" diameter interlace on its own, or cluster with the smaller 18" diameter Interlace to make an interesting lighting statement. Independent suspension cables allow multiple hanging angles. Includes 30 watt, 2400 gross lumens, 2700K, 80 CRI LED module. Dimmable with a low-voltage electronic dimmer. Includes 12 feet of field-cuttable aircraft cable to match finish selection.

## WEIGHT

8-8.5lb / 3.63-3.86kg ±
