

ModernRail Chandelier 1 LED

DESCRIPTION

The Aged Brass ModernRail Chandelier by Tech Lighting is uniquely different in that it offers the flexibility of a custom low-voltage rail system in an easy to order package. This ModernRail system can be customized with the option to choose from either frosted opal glass orbs or sleek contemporary cylinders, as well as frame the rail system with either a horizontal rectangular frame or two adjustable vertical frames. Scaling at 48" in length this grand chandelier is ideal for dining rooms, living rooms and home office spaces. The integrated LED globes or cylinders are fully dimmable to create the desired ambiance in your unique space. With its classic Aged Brass finish and uniquely crafted design the ModernRail Chandelier is sure to add a touch of sophistication to any space. Each kit comes complete with everything needed to install the ModernRail system. Ships with (10) 6 up/down & 4 horizontal 24v, 3 watt, 220 delivered lumens (2200 delivered lumens), 2700K, integrated LED modules. Dimmable with low-voltage electronic dimmer. Ships with twelve feet of field cuttable aircraft cable and sixteen feet adjustable power feed cable. Remote Power Supply version T24.
