

LOW - VOLTAGE P E N D A N T S

Projekt Pendant

DESCRIPTION

Sculptural and unexpected, this is a very modern take on the traditional finial. The LED light source shines brightly on the decorative finial perched inside the metal and glass exterior. The finish on the outer metal frame contrasts nicely making the polished finial inside the true focal point of the design. Includes 6 watt replaceable LED module and sixteen feet of field-cuttable suspension cable.

INSTALLATION

Socket terminates with FreeJack male connector, which may be installed into a system connector. Elements ordered with a system prefix include a connector for that system. For use on T~TRAK, order FreeJack version and T~TRAK FreeJack Connector (sold separately).
