

LINE - VOLTAGE HEADS

Render LED Head LED T20

DESCRIPTION

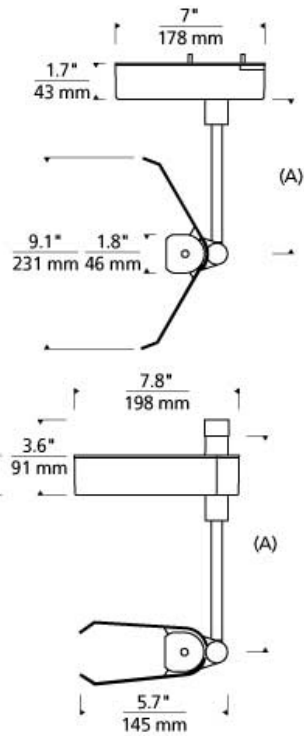

Render LED line-voltage wall wash head features a unique clamshell design for optimal vertical light distribution with adjustable horizontal cutoff control ranging from 2° to 120°. The smoothly diffused light is ideal for commercial applications such as accent, retail, or display where a well-defined wall wash effect is desired. The clamshell design is easily adjusted and available high or low output at 90 CRI with multiple CCT options.

OTHER
