

LOW - VOLTAGE PENDANTS

Talisma Pendant

DESCRIPTION

Each Talisma pendant light from Tech Lighting is comprised of three distinct layers of glass hand made by extraordinarily talented artisans in Venice, Italy. First, molded transparent clear glass forms the base layer, then frosted white glass envelops the base and finally, the top layer of your choice of white, smoke or black glass is applied. To add deep dramatic impact, each shade is then hand carved to reveal the transparent glass hidden within, allowing light from optional LED or Halogen lamping to escape the shade in unique, visually alluring patterns. The graduated 14" and 27" size options are balanced by each elongated cylinder's small 3" diameter to create impactful accent lighting - Use with Tech Lighting Monorail over a kitchen island or dining table or combine both sizes using Tech Lighting Freejack Canopy systems to create a custom chandelier perfect for your special dining or living space. Includes low-voltage, 50 watt, halogen bi-pin lamp or 8 watt, 300 delivered lumen, 3000K, replaceable SORAA LED module. Fixture provided with six feet of field-cutable cable. Works with SORAA.

INSTALLATION

Socket terminates with FreeJack male connector, which may be installed into a system connector. Elements ordered with a system prefix include a connector for that system. For use on T~TRAK, order FreeJack version and T~TRAK FreeJack Connector (sold separately).

WEIGHT

2.5-2.5lb / 1.13-1.13kg ±
