

UNILUME LED ACCENT & TASK

Unilume LED Direct Wire LED T20

DESCRIPTION

For undercabinet and task applications where 120V input is desirable, Unilume LED Direct Wire offers a class-leading combination of performance and versatility. With four convenient lengths, the ability to power up to 70 linked units from a power connection, a standard on/off switch, a reliable integrated driver, an optional occupancy sensor and color temperature/CRI options; Unilume LED Direct Wire is perfect for residential or commercial use.
