

LINEAR SUSPENSION

Unison Linear Suspension

DESCRIPTION

The soft lines of the figure 8-shaped acrylic diffuser and die-cast metal end-caps contribute to an unexpected and playful modern interpretation of a suspension fixture. The bold lines of the heat sink extrusion speak to the design's functionality as 40 watts of field-replaceable LED strips make the fixture a work-horse that is equally suitable for residential and commercial applications (3500 lumens, 3000K). Also available with one 54 watt high output T5 Linear fluorescent lamp. Ships with 21 feet of field- cuttable cord and twelve feet of aircraft cable. LED version dimmable with low-voltage electronic dimmer.

INSTALLATION

This product can mount to either a 4" square electrical box with round plaster ring or an octagonal electrical box (not included).
