TECH LIGHTING INTRODUCES NEW 2019 DECORATIVE PRODUCTS AT LIGHTOVATION

Perfect Balance of Modern Design, Precision Engineering and Uncompromising Quality

Skokie, Ill., January 16, 2019—Tech Lighting, a leader in sophisticated, modern style combined with the latest advancements in precision engineering, will debut its newest designs during Dallas Lightovation, held January 16-20, at the Dallas Market Center’s Interior Home + Design Center, showroom 1D111.

“With a passion for innovation, original design and uncompromising quality, our goal is to create iconic and timeless indoor and outdoor lighting for the spaces in which people live, work, play, learn, shop and more,” said Josh Weiss, Tech Lighting Executive Vice President. “We are particularly excited about our continued investment in modern chandeliers. We focused on both the aesthetics and how the chandeliers illuminate a room. As such, our new chandeliers provide uplight and downlight despite the directional nature of LEDs.”

Below is a sample of what Tech Lighting will introduce for 2019.

Tech Lighting Image	Tech Lighting Product Description
	<p>Inspired by the lotus flower, the Belterra chandelier by Tech Lighting has petal-shaped LED light guides which beautifully illuminate this contemporary design while capturing the purity of its graceful stem-work. Available in a Polished Nickel (<i>shown</i>), Brass or Matte Black finish, two sizes are available: 16.9” high with a 38” diameter (<i>shown</i>) and 23.3” high with a 48” diameter.</p>
	<p>The Aerial chandelier by Tech Lighting has symmetrically spaced arched rods that support a ring of cylindrical heads to establish its unique profile. The cylinders produce up and down illumination while concealing the integrated LED light sources. Available in one of two trending finishes—either Brass (<i>shown</i>) or Matte Black—Aerial is offered in two sizes: 5.8” high and 35.3” wide (<i>shown</i>) or 7” high and 53.1” wide. This fixture comes with four, 12” rigid stems and two, 6” rigid stems for installation flexibility. Aerial can be installed on a sloped ceiling up to a 45-degree angle.</p>

Tech Lighting Image	Tech Lighting Product Description
	<p>Featuring integrated LED technology, the Grace from Tech Lighting is designed with two rings that illuminate this contemporary chandelier. A large weathered oak ring has organic texture complemented by a decorative black inner ring (<i>shown</i>). Grace is also available in an all-Brass option. Offered in two diameters—30” and 35.8”—both sizes are a sleek 3.5” high.</p>
	<p>Part of Tech Lighting’s Linger Collection, this Linger Abstract chandelier is designed with 12 LED lights tapered by acrylic cylinders that illuminate in multiple directions. Available in Polished Nickel or Natural Brass (<i>shown</i>), Linger will slowly patina for a timeless look. This lighting fixture is 40.6” at its highest point and 52.3” in length. The Linger collection also includes wall sconces and other chandeliers.</p>
	<p>The Copa pendant by Tech Lighting has a two-tone domed glass shade that blends Transparent Smoke glass with a translucent mirrored cap. This retro design features finely detailed and textured hardware making it a modern work of art. The mirrored cap is offered in three finishes—Gold (<i>shown</i>), Chrome or Copper. Its dimensions are 14.5” high and 11” in diameter.</p>
	<p>The Orbel Collection from Tech Lighting elicits a fundamental principle of Mid-Century Modern art design with the contrast of basic geometric shapes. This Orbel flush mount features a circular canopy that supports alternating metal squares and four glowing, frosted spheres of light. With dimensions of 6.3” high and 15” in diameter, the Orbel ceiling fixture comes in either a Matte Black (<i>shown</i>), Brass or a Polished Nickel finish. The collection also includes wall sconces, a bath vanity and pendants.</p>

	<p>The Alate flush mount by Tech Lighting is uniquely designed with delicately feathered fins surrounding a curved acrylic diffuser. Integrated LEDs create abundant illumination with a soft appeal. Offered in a Satin Nickel finish, its dimensions are a sleek 1.7” high and 13” in diameter.</p>
	<p>The Joni wall sconce by Tech Lighting features a glowing integrated LED that sits against the backdrop of a simple elliptical reflector. Joni has a choice of either a Matte Black outer shade with a Matte White inner reflector or a Matte Black outer shade with a Matte Black inner reflector. These are designed for outdoor use as well. A third all-Brass finish (<i>shown</i>) is for indoor use only. The Joni sconce comes in three different sizes: 13” high and 7” in diameter, 16” high and 8.6” in diameter, and 20” high with a 10.8” diameter (<i>shown</i>).</p>
	<p>With a straightforward rectilinear design, the Sana outdoor wall sconce from Tech Lighting contrasts smooth black metal with concrete to create an industrial texture. Due to the nature of its natural materials, each Sana light fixture is unique. This integrated LED wall sconce aims light downward—which is ideal for wayfinding in hallways or stairwells. The Sana is available in either a 16” (<i>shown</i>) or 22” high version; both sizes are 5.3” wide and extend 2.9”, making them ADA compliant. Others in the Sana Collection include a line-voltage and low-voltage pendant.</p>
	<p>The Lody bath vanity light by Tech Lighting features four orb diffusers mounted at the ends of boldly regal, flared bells to create a Mid-Century Modern piece with distinctive linear LED illumination. Available in a Polished Nickel finish—Lody is 6.6” high, 24.1” long and extends 3.6”, making it ADA compliant. The Lody Collection also has two chandeliers and a wall sconce.</p>

Tech Lighting Product Image	Tech Lighting Product Description
	<p>The Tris bath vanity light by Tech Lighting reflects simple geometric aesthetics that define this modern three-light fixture. The integrated LED light guide technology appears as frosted glass when off—then illuminates across its surface when turned on. Tris is available in Satin Nickel (<i>shown</i>), Brass or Chrome and is 4.3” high, 25.6” long and extends 3.4”, making it ADA compliant.</p>

About Tech Lighting

Part of Visual Comfort Group, Tech Lighting is recognized for its sophisticated, modern portfolio that celebrates the design freedom delivered by LED technology. The brand is known for specification-grade architectural, recessed, decorative and outdoor lighting in a wide variety of categories such as chandeliers, pendants, flush mounts, wall sconces, bath bars, and more. Tech Lighting is a premium choice for architects, specifiers, designers, and homeowners since 1988. Its products can be found in lighting showrooms and websites across North America.
